Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

1. Implement least privilege and separation of duties. Restrict access to sensitive customer and card data to only what an employee needs for their job function.
2. Establish robust password policies and MFA: Use a centralized password management system. Require complex passwords and regular password rotation. Enforce Multi-Factor Authentication (MFA).
3. Implement Encryption & Security Controls: Use end-to-end data encryption (at rest & in transit) for PCI DSS/GDPR compliance. Implement Intrusion Detection System (IDS). Prepare disaster recovery plans
